CATARACT SURGERY

Trust the Experts at Surgical Direct to Help Your Surgery Days Run Smoothly!

Your Choice of the Latest Cataract Equipment

We offer the most current ophthalmic equipment, and maintain them to factory specifications. We carry a full line of ophthalmic surgical equipment from companies such as Alcon, AMO, Bausch+Lomb, Zeiss, and Lumenis while continually evaluating new ophthalmic products to provide the latest cataract equipment that physicians want!

We Handle Inventory Management and Lens Consignments

We are able to bring supplies customized to meet the specifications indicated by each individual physician. Our inventory reflects a wide variety of top of the line products including:

- A Complete Selection of Lenses (and Premium Lenses)
- High Quality Ancillary Supplies (blades, cannulas, viscoelastics, and BSS)
- Specialty Items Such As Malyugin Rings and CTRs

Professional, Trained Technicians

Our professional technicians are phaco certified and receive training in OSHA, HIPAA, blood-borne pathogens, aseptic technique, fire safety and operating room protocol, and have received extensive training from the leading cataract equipment manufacturers such as Alcon, AMO, B+L, and Zeiss. All of our technicians carry all necessary business insurance and are vendor certified at each facility.

A Reliable Continuity of Trained Ophthalmic Technicians

The Latest Mobile Cataract Equipment

Tremendous Scope of Trusted Name Brand Products

I would highly recommend Surgical Direct to any surgeon who wishes access to the latest technology and the most responsive tech support in the industry. The leadership from Kevin Francis and Ted Barden is outstanding and both are highly experienced and exquisitely sensitive to my surgical needs. Their equipment is the latest available and I have been able to try the best technology at any hospital. Their technicians are reliable, on time and very well trained to assist the surgeon. I would use no other company in my outreach surgery locations. They are the key to smooth, relaxing, trouble-free surgery.
